Stewart Cellers Foundation is looking for community service projects that will benefit the Kaycee community. We have approximately \$100,000.00 for grants. Some ideas include museums, libraries or historic sites as well as educational opportunities including conferences and seminars or visual and performing arts projects. We would encourage applications from volunteer services, including senior citizen services, youth activities, volunteer fire department and EMS. If you have an idea for a stand-alone project or a project that can be blended with a larger effort, please contact us at ASCellers@gmail.com.
